

LabPRO Pipette Tips

LabPRO Tips are designed, developed, and manufactured in order to fit LabPro pipettes perfectly but also all commercially available pipettes. They ensure optimal performance of your pipettes across the full volume range and are perfectly fit for manual or electronic, single or multichannel

Accuracy and Precision:

Optimized geometry and pure polypropylene material ensure complete dispensing for consistent results. The use of LabPRO's pipetting system guarantees accuracy and precision.

High Quality:

Full traceability from the mold to the bench guaranteed. Easy identification with color-coded packaging.

Contamination Free:

No risk of contamination: LabPRO Tips are manufactured in a clean room.
